CHALLENGE

Support the client in the development of a business and cybersecurity strategy.

Implementation

Our resident cybersecurity expert worked with the technological direction of the CIUSSS de l'Estrie to establish the vision and business strategy as well as the implementation plan for the recommendations issued by the Board of Directors. He was present on site for the duration of the mandate, accompanying the various teams and acting as an advisor to the CISO.

Results

These collaborative efforts have made it possible to develop a structured response aligned with the business and security needs of the CIUSSS de l'Estrie. He keeps helping the management team during presentations at various executive levels.
